Manager's Investment Report

Investment Objective and Policy

The objective of the Fund is to track the capital performance of global emerging equity markets, as represented by the FTSE All-World Emerging Index.

The Manager will seek to achieve the investment objective by investing primarily in securities that make up the constituents of the FTSE All-World Emerging Index. The Fund may also invest in stocks which are reasonably expected, at the investment manager's discretion to become part of the Index. Securities will be held with weightings generally proportionate to their market capitalisation. The Fund may hold depository receipts and derivatives both for efficient portfolio management and investment purposes.

The Fund may also invest in other transferable securities, equities, permitted deposits, money market instruments, cash, near cash and units in collective investment schemes.

Manager's Investment Report

During the year under review, the bid price of the Fund's R-Class distribution units rose by 2.11%. FTSE, the Index compiler, calculates the benchmark Index at the end of the business day using closing prices, whereas the Fund is valued using prevailing prices at 12 noon. Therefore, for tracking purposes the Fund has been revalued using closing prices and foreign exchange rates. On this basis over the review year, the Fund rose by 2.80%, compared with the FTSE All World Emerging Markets Index performance of 2.75% (Source: Bloomberg), producing a tracking difference of +0.05%.

Past performance is not a guide to future performance.

The value of investments and any income from them may go down as well as up.

Exchange rate changes may cause the value of any overseas investments to rise or fall.

The FTSE All-World Emerging Index is calculated by FTSE International Limited ("FTSE"). FTSE does not sponsor, endorse or promote this product.

Market/Economic Review

A combination of an improving global economic outlook, low inflation and supportive central bank policies has underpinned equity markets worldwide over the last 12 months. However, there was a spike in market volatility during the first quarter of 2018 with escalating trade tensions between the US and China triggering a sell-off.

After performing strongly in late 2017 as confidence in the global economic outlook remained robust, emerging market equities subsequently faltered, underperforming their global market peers over the 12 months as a whole. Concerns over the likely pace and extent of future US interest rate rises and the growing risk of a global trade war impacted on investors' appetite for risk. In regional terms, Latin American markets underperformed other emerging markets, weighed by growing domestic political risks and resistance to economic reform, particularly in Brazil. However, Asian markets showed greater resilience, largely reflecting ongoing confidence in the region's economic prospects.

Fund Review

Companies held within the Fund are held with weightings generally proportionate to those of the benchmark Index. Therefore, investment activity, other than to raise or invest cash, is only necessary when there are changes to the benchmark Index or as a result of a corporate action.

The September 2017 semi-annual review resulted in 42 additions and 12 deletions. The additions were primarily concentrated on the addition of Chinese Depository receipts listed in the US following a change in the FTSE ground rules. There were a further 50 changes to the free share capital of constituents with the largest increases being Grasim Industries (India), Vale (Brazil) and Bharti Infratel (India) and the largest decreases being Vale (Brazil) Preference Shares, ICICI Bank (India) and Kotak Mahindra Bank (India). The total two-way Index turnover was 7.0%.

At the December 2017 quarterly Index review, there were five additions including Guotai Junan Securities (China) and Wuxi Biologics Cayman (China) and two deletions, the significant deletion was Kotak Mahindra Bank (India). There were a further 84 changes to the free share capital of constituents with the largest increases being Alibaba Group ADR (N Shares) (China), Baidu ADR (N Shares) (China) and JD.com ADR (N Shares) (China) and the largest decreases being Reliance Industries (India), ICICI Bank (India) and IndusInd Bank (India). Total two-way Index turnover was 4.8%.

At the March 2018 semi-annual Index review, there were 35 additions and 23 deletions. The largest additions were YY ADR (China), Globalwafers (Taiwan) and CIFI (China). The largest deletions were Hotai Motor (Taiwan) and JG Summit (Philippines). Both Siam Cement (Thailand) and Magnit GDR (Russia) had a different listing replace the existing security in the Index resulting in no net impact on their respective weights within the Index. There were a further 72 changes to the free share capital of constituents with the largest increases being Alibaba Group ADR (N Shares) (China), Baidu ADR (N Shares) (China) and JD.com ADR (N Shares) (China) and the largest decreases being Infosys (India), ICICI Bank (India) and IndusInd Bank (India). Total two-way Index turnover was 7.39%.

At the June 2018 quarterly Index review, there were six additions including HDFC Standard Life Insurance (India) and Future Retail (India) and two deletions, the significant deletions were ICICI Bank (India) and IndusInd Bank (India). There were a further 317 changes to the free share capital of constituents with the largest increases being Alibaba Group ADR (N Shares) (China), Baidu ADR (N Shares) (China) and Qatar National Bank (Qatar). The largest decreases were Malayan Banking (Malaysia), Sberbank (Russia) and America Movil (Mexico). Total two-way Index turnover was 6.07%.

Outlook

From our perspective, there are three key risks of which to be mindful: that inflation could rise faster than expected, a further strengthened US Dollar which would squeeze other nations and trade wars. On the latter, the existing set of tariffs on steel, aluminium and solar panels are relatively small. However, it is the significant escalation that could cause wider issues. Escalation increases the risk of a more negative financial market reaction and damage to business and consumer confidence. While tariffs on steel and aluminium are less visible to consumers, widespread tariffs will hit high-profile consumer goods such as electronics and clothing. If a full-scale trade war becomes a reality, we see it as inflationary and negative for US, Chinese and global growth.

The Fund remains well positioned to capture the performance of the Index.

Statement of Responsibilities

Statement of the Manager's Responsibilities

The Collective Investment Schemes sourcebook published by the FCA, ("the COLL Rules") require the Manager to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund and of the net income and net gains or losses on the property of the Fund for the period.

In preparing the financial statements, the Manager is responsible for:

- selecting suitable accounting policies and then apply them consistently;
- making judgements and estimates that are reasonable and prudent;
- following UK accounting standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland;
- complying with the disclosure requirements of the Statement of Recommended Practice for UK Authorised Funds issued by the Investment Management Association in May 2014;
- keeping proper accounting records which enable it to demonstrate that the financial statements as prepared comply with the above requirements;
- assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern;
- using the going concern basis of accounting unless they either intend to liquidate the Fund or to cease operations, or have no realistic alternative but to do so;
- such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; and
- taking reasonable steps for the prevention and detection of fraud and irregularities.

The Manager is responsible for the management of the Fund in accordance with its Trust Deed, the Prospectus and the COLL Rules.

Statement of Responsibilities continued

Statement of the Trustee's Responsibilities

The Depositary in its capacity as Trustee of Legal & General Global Emerging Markets Index Fund must ensure that the Fund is managed in accordance with the Financial Conduct Authority's Collective Investment Schemes Sourcebook, the Financial Services and Markets Act 2000, as amended, (together "the Regulations"), the Trust Deed and Prospectus (together "the Scheme documents") as detailed below.

The Depositary must in the context of its role act honestly, fairly, professionally, independently and in the interests of the Fund and its investors.

The Depositary is responsible for the safekeeping of all custodial assets and maintaining a record of all other assets of the Fund in accordance with the Regulations.

The Depositary must ensure that:

- the Fund's cash flows are properly monitored and that cash of the Fund is booked in cash accounts in accordance with the Regulations;
- the sale, issue, repurchase, redemption and cancellation of units are carried out in accordance with the Regulations;
- the value of units of the Fund are calculated in accordance with the Regulations;
- any consideration relating to transactions in the Fund's assets is remitted to the Fund within the usual time limits;
- the Fund's income is applied in accordance with the Regulations; and
- the instructions of the Authorised Fund Manager ("the AFM"), which is the UCITS Management Company, are carried out (unless they conflict with the Regulations).

Report of the Trustee

Report of the Trustee to the Unitholders of the Legal & General Global Emerging Markets Index Fund ("the Fund") for the year ended 31 July 2018

The Depositary also has a duty to take reasonable care to ensure that the Fund is managed in accordance with the Regulations and the Scheme documents of the Fund in relation to the investment and borrowing powers applicable to the Fund.

Having carried out such procedures as we considered necessary to discharge our responsibilities as Depositary of the Fund, it is our opinion, based on the information available to us and the explanations provided, that, in all material respects the Fund, acting through the AFM:

- (i) has carried out the issue, sale, redemption and cancellation, and calculation of the price of the Fund's units and the application of the Fund's income in accordance with the Regulations and the Scheme documents of the Fund; and
- (ii) has observed the investment and borrowing powers and restrictions applicable to the Fund in accordance with the Regulations and the Scheme documents of the Fund.

Independent Auditor's Report

Independent auditor's report to the Unitholders of Legal & General Global Emerging Markets Index Fund ('the Fund')

Opinion

We have audited the financial statements of the Fund for the year ended 31 July 2018 which comprise the Statement of Total Return, the Statement of Changes in Net Assets Attributable to Unitholders, the Balance Sheet, the Related Notes and Distribution Tables for the Fund and the accounting policies set out on pages 38 and 39.

In our opinion, the financial statements:

- give a true and fair view, in accordance with UK accounting standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland, of the financial position of the Fund as at 31 July 2018 and of the net revenue and the net capital gains on the property of the Fund for the year then ended; and
- have been properly prepared in accordance with the Trust Deed, the Statement of Recommended Practice relating to UK Authorised Funds, and the COLL Rules.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the Fund in accordance with, UK ethical requirements including the FRC Ethical Standard.

We have received all the information and explanations which we consider necessary for the purposes of our audit and we believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going concern

We are required to report to you if we have concluded that the use of the going concern basis of accounting is inappropriate or there is an undisclosed material uncertainty that may cast significant doubt over the use of that basis for a period of at least twelve months from the date of approval of the financial statements. We have nothing to report in these respects.

Other information

The Manager (Legal & General (Unit Trust Managers) Limited) is responsible for the other information presented in the Annual Manager's Report together with the financial statements. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the other information; and
- in our opinion the information given in Manager's Report for the financial year is consistent with the financial statements.

Independent Auditor's Report continued

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where under the COLL Rules we are required to report to you if, in our opinion:

- proper accounting records for the Fund have not been kept; or
- the financial statements are not in agreement with the accounting records.

Manager's responsibilities

As explained more fully in their statement set out on page 6, the Manager is responsible for: the preparation of financial statements that give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Fund or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Fund's unitholders, as a body, in accordance with Rule 4.5.12 of the Collective Investment Schemes sourcebook ("the COLL Rules") issued by the Financial Conduct Authority under section 247 of the Financial Services and Markets Act 2000. Our audit work has been undertaken so that we might state to the Fund's unitholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Fund and the Fund's unitholders as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the Financial Statements

1. Statement of Compliance

The Financial Statements have been prepared in compliance with UK Financial Reporting Standard 102 (FRS 102) and in accordance with the Statement of Recommended Practice for UK Authorised Funds issued by the Investment Management Association in May 2014 (2014 SORP).

2. Summary of Significant Accounting Policies

(a) Basis of Preparation

The Financial Statements have been prepared on a going concern basis, under the historical cost convention as modified by the revaluation of certain financial assets and liabilities measured at fair value through profit or loss.

The principal accounting policies which have been applied consistently are set out below.

(b) Functional and Presentation Currency

The functional and presentation currency of the Fund is Sterling.

(c) Recognition of Revenue

Revenue from quoted equities and non-equity shares is recognised net of attributable tax credits when the security is quoted ex-dividend. Revenue from unquoted equity investments is recognised net of attributable tax credits when the dividend is declared.

Overseas revenue received after the deduction of withholding tax is shown gross of taxation, with the taxation consequences shown within the taxation charge.

Special dividends are treated as either revenue or capital depending on the facts of each particular case.

Bond revenue is accounted for on an effective yield basis, calculated with reference to the purchase price. If the Manager believes that future commitments will not be met due to the bond issuer showing signs of financial distress, revenue accruals will be discounted. Any resultant revenue from these issues will then be treated on a receipts basis.

All other revenue is recognised on an accruals basis.

(d) Treatment of Expenses

All expenses (other than those relating to the purchase and sale of investments) are charged against revenue on an accruals basis.

Notes to the Financial Statements continued

2. Summary of Significant Accounting Policies continued

(e) Distribution Policy

The policy is to distribute all available revenue, after deduction of those expenses which are chargeable in calculating the distribution, on an annual basis, in accordance with the COLL.

Fund management fees are deducted from revenue for the purpose of calculating the distribution.

The ordinary element of stock dividends is treated as revenue and forms part of the distribution. In the case of an enhanced stock dividend, the value of the enhancement is treated as capital and does not form part of the distribution.

Distributions which have remained unclaimed by Unitholders for over six years are credited to the capital property of the Fund.

(f) Basis of Valuation of Investments

All investments are valued at their fair value as at 12 noon on 31 July 2018, being the last working day of the accounting year. The fair value for non-derivative securities is bid market price. The fair value for derivative instruments is the cost of closing out the contract on the last working day of the accounting year.

Where values cannot be readily determined, the securities are valued at the Manager's best assessment of their fair and reasonable value.

(g) Taxation

Provision is made for taxation at current rates on the excess of investment revenue over expenses, with relief for overseas taxation taken where appropriate.

Deferred tax is provided for on all timing differences that have originated but not reversed by the balance sheet date, other than those differences that are regarded as permanent. Any liability to deferred tax is provided for at the average rate of tax expected to apply.

(h) Foreign Exchange

Transactions in foreign currencies are translated at the rate of exchange ruling on the date of the transaction. Where applicable, assets and liabilities denominated in foreign currencies are translated into Sterling at the rates of exchange ruling at 12 noon on 31 July 2018, being the last working day of the accounting year.

(i) Derivative Instruments

The Fund may make use of financial derivative instruments for Efficient Portfolio Management (EPM) purposes. EPM aims to reduce risk, reduce costs, or generate additional capital or income for the Fund with an acceptably low level of risk. These aims allow for tactical asset allocation, which is a temporary switch in investment exposure through the use of derivatives rather than trading the underlying securities.

Derivative instruments held within the Fund have been accounted for and taxed in accordance with the Statement of Recommended Practice for Authorised Funds (IA SORP 2014). Returns on derivative transactions have been treated as either revenue or capital depending on the motives and circumstances on acquisition.

Notes to the Financial Statements continued

6. Taxation

(a) Analysis of taxation charge in year

	31/07/18	31/07/17
	£	£
Overseas tax	2,168,040	1,736,076

Total taxation	<u>2,168,040</u>	<u>1,736,076</u>

(b) Factors affecting taxation charge for the year

The current tax charge excludes capital gains and losses for the reason that Authorised Unit Trusts are not subject to Corporation Tax on these items. Current tax differs from taxation assessed on net revenue before taxation as follows:

Net revenue before taxation	21,456,727	20,079,495
Net revenue before taxation multiplied by the applicable rate of Corporation tax of 20% (2017: 20%)	4,291,345	4,015,899
Effects of:		
Overseas tax	2,168,040	1,736,076
Revenue not subject to taxation	(4,355,271)	(4,141,303)
Excess management expenses not utilised	63,926	125,404
Current tax	<u>2,168,040</u>	<u>1,736,076</u>

(c) Provision for deferred tax

There is no deferred tax provision in the current or preceding year. At the year end there is a potential deferred tax asset of £656,133 (31 July 2017: £592,207) due to surplus management expenses.

It is unlikely the Fund will generate sufficient taxable profits in the future to utilise this amount and therefore no deferred tax asset has been recognised (31 July 2017: same).

11. Contingent liabilities and outstanding commitments

There were no contingent liabilities or outstanding commitments at the balance sheet date (31 July 2017: same).

Notes to the Financial Statements continued

12. Financial Instruments and Associated Risks

The investments of a Fund in financial securities and derivatives are subject to normal market fluctuations and other risks inherent in investing in such instruments. Legal & General (Unit Trust Managers) Limited (UTM) is the Authorised Fund Manager and has responsibility for ensuring appropriate risk management processes are implemented for each Unit Trust.

The UTM Board has delegated the risk oversight function to the Fund Manager Oversight Committee (FMOC), a committee of the Legal & General Investment Management (Holdings) Limited (LGIMH) Board that meets monthly. The primary objective of the FMOC is to ensure proper oversight of the investment management activities and associated services performed by LGIM, its delegates and other Fund Managers, under the Investment Management Agreement (IMA), on behalf of UTM in its capacity as Authorised Fund Manager. The committee consists of senior members of LGIMH and members of the UTM Board. Other senior staff members are also in attendance, as required by the agenda.

Each Fund has Investment Guidelines, an Investment Objective and Investment Restrictions, against which the fund manager will operate. These are set out in Schedule 1 of the IMA between LGIM and UTM. The Schedule is maintained by each fund manager, reviewed by the LGIM Operational Risk and Compliance Teams and approved senior members of LGIMH on behalf of the UTM board. The Schedule provides the detail needed to determine the risk profile for each fund. Fund managers are not permitted to invest into any new instruments without first gaining approval from UTM.

The Investment Objective and Policy of this Fund is detailed on page 2.

(a) Market Risk arising from other price risk

Market Risk arises mainly from uncertainty about future prices. It represents the potential loss the Fund may suffer through holding market positions in the face of market movements.

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar instruments traded in the market.

The assets held by the Fund can be seen in the Portfolio Statement starting on page 9. Movements in the prices of these investments result in movements in the performance of the Fund. The Manager adheres to the investment guidelines established in the Trust Deed, the Prospectus, the COLL and the Fund's IOG, and in this way, monitors and controls the exposure to risk from any type of security, sector or issuer.

At 31 July 2018, if the price of the investments held by the Fund increased or decreased by 5%, with all other variables remaining constant, then the net assets attributable to unitholders would increase or decrease by approximately £39,965,474 (31 July 2017: £41,628,580).

Notes to the Financial Statements continued

12. Financial Instruments and Associated Risks continued

(b) Interest Rate Risk

Interest Rate Risk is the risk of movements in the value of financial instruments as a result of fluctuations in interest rates.

The Fund's only interest bearing financial instruments were its bank balances and overdraft facilities as disclosed in note 9. Cash is deposited and overdraft facilities utilised on normal commercial terms and earn or bear interest based on LIBOR or its overseas equivalent.

In the event of a change in interest rates, there would be no material impact upon the assets of the Fund.

Notes to the Financial Statements continued

12. Financial Instruments and Associated Risks continued

(c) Foreign Currency Risk

Foreign Currency Risk is the risk of movements in the value of financial instruments as a result of fluctuations in exchange rates. This risk may be managed by the use of forward currency contracts or currency futures as necessary.

Forward currency contracts were utilised during the current and the preceding year.

At 31 July 2018, if the value of Sterling increased or decreased by 1% against all currencies, with all other variables remaining constant, then the net assets attributable to unitholders would increase or decrease by approximately £7,995,163 (31 July 2017: £8,432,030).

The direct foreign currency profile of the Fund's net assets at the balance sheet date was:

31/07/18 Currency	Net foreign currency assets		Total £'000

(d) Credit Risk

Credit Risk is the risk of suffering financial loss as a result of a counterparty to a financial transaction being unable to fulfil their financial obligations as they fall due.

This risk is managed by appraising the credit profile of financial instruments and issuers in line with the Fund's investment objective and policy.

(e) Liquidity Risk

Liquidity Risk relates to the capacity to meet liabilities as they fall due. The primary source of this risk to the Fund is the liability to Unitholders for any cancellation of units.

The Fund can also be exposed to liquidity risk through its commitments under derivative contracts, whereby additional margin payments or collateral payments may need to be posted with the counterparty or clearing house.

This risk is minimised by holding a large proportion of readily realisable assets, cash balances and via access to overdraft facilities.

(f) Derivative Risk - Sensitivity Analysis

Derivative Risk arises from uncertainty about future market movements. This risk is managed by the policies shown within Market risk.

At the balance sheet date the Fund made use of the following derivatives:

Futures

Futures are used to adjust the equities exposure risk of the Fund in a cost effective manner. The effect of these instruments was to increase the exposure of the Fund by £1,940,077 (31 July 2017: increase the exposure by £3,744,029), representing 0.24% of the net asset value (31 July 2017: 0.44%).

This results in an effective equity exposure at the year end of 99.20% (31 July 2017: 98.87%) of net assets, which means that the gains or losses of the Fund will be 0.9920 (31 July 2017: 0.9887) times the gains or losses if the Fund was fully invested in equities.

(g) Fair Value

The fair value of a financial instrument is the amount for which it could be exchanged between knowledgeable, willing parties in an arm's length transaction. There is no material difference between the value of the financial assets and liabilities, as shown in the financial statements, and their fair value.

The Statement of Recommended Practice for Financial Statements of UK Authorised Funds issued by the Investment Management Association in May 2014 requires the classification of the Fund's financial instruments held at the year end into a 3 tiered fair value hierarchy. The 3 tiers of the hierarchy and the classification of the Fund's financial instruments as at the balance sheet date were:

31/07/18	Assets	Liabilities

15. Ultimate controlling party and related party transactions

The Manager is regarded as a related party to the Fund because it provides key management personnel services to the Fund. The ultimate controlling party of the Manager is Legal & General Group Plc. Subsidiaries of Legal & General Group Plc are also considered related parties to the Fund.

Legal & General (Unit Trust Managers) Limited acts as the principal on all the transactions of the units in the Fund. The aggregated monies received through creations or paid on cancellations are disclosed in the statement of change in net assets attributable to unitholders.

Equalisation amounts relating to creations and cancellations of units are shown within note 7. Fees received by the Authorised Fund Manager from the Fund plus any rebates paid by the Authorised Fund Manager to the Fund are shown within notes 3, 4 and 5 as applicable. Any outstanding fees, amounts outstanding on creations or cancellations of units in the Fund, or rebates receivable by the Fund from the Manager are shown within notes 8 and 10 as applicable.

At the year end, the Manager and its associates held 39.20% (50.67% as at 31 July 2017) of the Fund's units in issue.

16. Post balance sheet market movements

As at the close of business on the balance sheet date the Net Asset Value per R-Class distribution unit was 57.20p. The Net Asset Value per R-Class distribution unit for the Fund as at 12 noon on 18 September 2018 was 53.32p. This represents a decrease of 6.78% from the year end value.

Distribution Table

Distribution Table for the year ended 31 July 2018

Group 1: units purchased prior to a distribution period.

Group 2: units purchased during a distribution period.

Equalisation is the average amount of revenue included in the purchase price of all Group 2 units and is refunded to the holders of these units as a return of capital. As capital it is not liable to Income Tax but must be deducted from the cost of units for Capital Gains Tax purposes.

Fund Information

The Comparative Tables on pages 55 to 63 give the performance of each active share class in the Fund.

The 'Return after charges' disclosed in the Comparative Tables is calculated as the return after operating charges per unit divided by the opening net asset value per unit. It differs from the Fund's performance disclosed in the Manager's report, which is calculated based on the latest published price.

Portfolio transaction costs are incurred when investments are bought or sold by a fund in order to achieve the investment objective. These transaction costs affect an investor in different ways depending on whether they are joining, leaving or continuing with their investment in the Fund.

Direct transaction costs include broker commission and taxes. Broker commission includes the fee paid to a broker to execute the trades and research costs.

In addition, there are indirect portfolio transaction costs arising from the 'dealing spread' – the difference between the buying and selling prices of underlying investments in the portfolio. Unlike shares whereby broker commissions and stamp duty are paid by a fund on each transaction, other types of investments (such as bonds, money instruments, derivatives, collective investment schemes) do not have separately identifiable transaction costs; these costs form part of the dealing spread. Dealing spreads vary considerably depending on the transaction value and money market sentiment.

Risk and Reward Profile (unaudited)

- This risk and reward profile is based on historical data which may not be a reliable indication of the Fund's risk and reward category in the future.
- The category number highlighted above reflects the rate at which the Fund's unit price has moved up and down in the past. If the Fund has less than five years' track record, the number also reflects the rate at which the Index the Fund tracks has moved up and down in the past. Higher numbers mean the potential reward could be greater, but this comes with increased risk of losing money.
- The Fund is in category six because it invests in company shares which are sensitive to variations in the stock market. The value of company shares can change substantially over short periods of time. Company shares are generally considered to be higher risk investments than bonds or cash.
- The Fund's category is not guaranteed to remain the same and may change over time.
- Even a fund in the lowest category is not a risk free investment.

* F-Class units are only available to:

- (i) investors who have received advice from authorised intermediaries, platforms or other distributors in relation to their investment in units in the Fund and
- (ii) distributors who the Manager reasonably considers will adequately bear the costs of marketing to and acquiring investors at no or limited cost to the Manager, and to whom the Manager has confirmed that such distributor or investor meets the criteria for investment in such units.

** C-Class units are only available to distributors who actively market and distribute such units (or whom the Manager believes intend to do so) and to whom the Manager has confirmed by letter that they meet the criteria for investment in such units.

† L-Class units are not available to retail customers and are intended only for investment by Legal & General group companies.

Information on Tracking Error

The 'Tracking Error' of a Fund is the measure of the volatility of the differences between the return of the Fund and the return of the benchmark Index. It provides an indication of how closely the Fund is tracking the performance of the benchmark Index after considering things such as Fund charges and taxation.

Using monthly returns, over the review year, the annualised Tracking Error of the Fund is 0.97%, whilst over the last three years to the end of July 2018, the annualised Tracking Error of the Fund is 1.05%. These Tracking Errors are within the anticipated Tracking Error levels set out in the Fund's Prospectus of +/-1.50% per annum.
