Manager's Investment Report

Investment Objective and Policy

The investment objective of this Trust is to secure capital growth from a portfolio of securities for companies whose business conforms to a range of ethical and environmental guidelines.

Securities representing all such companies in the FTSE 350 Index will be held with weightings generally proportionate to their market capitalisation.

From time to time, non-Index constituents and non-ethical stocks may be held as a result of a corporate action and these holdings will be sold or transferred as soon as reasonably practical.

Companies will be considered eligible unless they are involved in the following activities:

Animal testing	Military – nature of involvement
Gambling	Non-sustainable Timber
Health & safety convictions	Nuclear power
Countries with poor human rights records	Ozone depleting chemicals
Intensive farming	Pornography
Investment Trusts	Tobacco
	Water pollution

Independent monitoring of companies is carried out by Ethical Investment Research Services (“EIRIS”) based on the criteria above.

Manager's Investment Report

During the period under review, the bid price of the Trust's R-Class distribution units rose by 4.65%. Although there is no published Index for those companies assessed as eligible by EIRIS, for comparison over the same period but using close of business to close of business pricing, the Legal & General Ethical Trust grew by 3.78% whereas, the FTSE 350 Index (excluding Investment Trusts) increased by 3.24% (Source: Bloomberg). Similarly, the broader based FTSE All-Share Index (excluding Investment Trusts) increased by 3.28% (Source: Bloomberg).

Past performance is not a guide to future performance.

The value of investments and any income from them may go down as well as up.

Market/Economic Review

Despite closing 2017 on a positive note, UK equities faltered during the first quarter of 2018 recording three consecutive months of losses before rallying in April and May. Sterling's strength, with the currency reaching its highest level since the 2016 referendum, surpassing \$1.40 at the end of January, has caused a headwind for companies and sectors with high international earnings, notably food & beverages. Although the Bank of England indicated interest rates may need to be increased as soon as May, the economy grew at its slowest pace for six years during the first quarter putting paid to the prospect of an imminent rate hike. The resources sectors have performed well, while autos were boosted by a hostile takeover bid from Melrose Industries for component supplier GKN which eventually received shareholder approval.

In the UK, the domestically focused FTSE 250 Index (+5.82%) and FTSE SmallCap Index (+4.22%) outperformed the more internationally focused FTSE 100 Index (+2.71%).

Trust Activity

The Trust's selection process excludes the Tobacco and Military industries, while the Oil & Gas, Banks, Mining, Pharmaceuticals & Biotechnology and Beverages sectors are markedly underweight. Such exclusions are compensated for by an increased presence in Life Insurance, Mobile Telecommunications and Financial Services.

There are three principal reasons for changes to the distribution of investments in the Trust: first, changes in the list of companies which meet the ethical criteria; secondly, changes in the FTSE 350 ex Investment Trusts Index at its quarterly review; and finally, changes due to corporate activity and takeovers.

FTSE rebalances the Index every quarter and companies added to the Index are only added to the Trust once confirmation of their acceptability for inclusion is received from EIRIS.

There were two Index reviews during the period.

In December 2017 the FTSE 350 ex Investment Trusts Index quarterly Index review resulted in 4 additions and 3 deletions. BCA Marketplace, RHI Magnesita, PureCircle and TI Fluid Systems were added and all of these stocks were subsequently assessed as eligible by EIRIS with the exception of RHI Magnesita that was deemed as unacceptable stock. PayPoint, Restaurant Group, Nostrum Oil & Gas were deleted from the Index. The largest increases in free share capital were for IP Group, Hargreaves Lansdown and SSE, and the largest decreases were for Hansteen Holdings, National Grid and Aviva.

In March 2018 the quarterly Index review resulted in 5 additions and 7 deletions. Games Workshop Group, On the Beach Group, ContourGlobal, Charter Court Financial Services Group and Bakkavor Group were added and all of these stocks were subsequently assessed as eligible by EIRIS with the exception of ContourGlobal and Bakkavor Group that were deemed as unacceptable stocks. Mitie Group, Vectura Group, Hansteen Holdings, Dignity, AA, Brown (N.) Group and Acacia Mining were deleted from the Index. The largest increases in free share capital were for Ocado Group, Dechra Pharmaceuticals and TalkTalk Telecom Group and the largest decreases were for Ferguson, Pearson and Carnival.

The merger activity outside the Index reviews included promotion of Fenner from FTSE SmallCap Index as a result of the acquisition of Worldplay Group (UK) by Worldplay Inc (US) that was deemed as unacceptable stock by EIRIS. Stocks deleted from the Index as a result of all cash deals were Aldermore Group that was acquired by FirstRand Limited, and Fenner that was acquired by Michelin B.

Outside Index reviews, the free float was increased as a result of secondary placing for Royal Bank of Scotland Group. Index weight increased as a result of primary placings for Cineworld Group, John Laing Group and Provident Financial.

Capita Group raised capital via a rights issue.

The three largest stocks in the Trust at the end of the period were Vodafone Group, Prudential and Lloyds Banking Group.

Outlook

Expectations that the Bank of England would opt to increase interest rates at its May meeting initially grew then subsided as the downside surprise of the first quarter's growth figures were announced. Bond-correlated sectors had a better month as the uptick in bond yields witnessed so far in 2018 came to a halt, benefiting utilities and healthcare stocks. Our view is that the fundamentals driving economic growth remain

Manager's Investment Report continued

relatively strong, and global growth is synchronised and therefore see limited recession risks in the next 12 months.

The Trust remains well positioned to capture the performance of the Index.

	12 Jun 18	12 Dec 17
R-Class	0.81%	1.05%
F-Class	0.45%	0.45%
I-Class	0.31%	0.31%

The Ongoing Charges Figure (OCF) is the ratio of the Trust's total disclosable costs (excluding overdraft interest) to the average net assets of the Trust.

The OCF is intended to provide a reliable figure which gives the most accurate measure of what it costs to invest in a trust and is calculated based on the last period's figures.

Risk and Reward Profile

- This risk and reward profile is based on historical data which may not be a reliable indication of the Trust's risk and reward category in the future.
- The category number highlighted above reflects the rate at which the Trust's unit price has moved up and down in the past. If the Trust has less than five years' track record, the number also reflects the rate at which the Index the Trust tracks has moved up and down in the past. Higher numbers mean the potential reward could be greater, but this comes with increased risk of losing money.
- The Trust is in category five because it invests in company shares which are sensitive to variations in the stock market. The value of company shares can change substantially over short periods of time. Company shares are generally considered to be higher risk investments than bonds or cash.
- The Trust's category is not guaranteed to remain the same and may change over time.
- Even a trust in the lowest category is not a risk free investment.

Dual Pricing Arrangement

The Manager's fixed dual pricing arrangement has a set spread to account for the costs of transacting in a particular Trust. Where the Manager operates a box through which unit subscriptions and unit redemptions are netted into a single trade instruction to the Trustee, the netting reduces the actual transaction costs and this generates a revenue to the Manager. The revenue generated from this activity is calculated on a monthly basis and returned to the Trust in the form of a payment from the Manager. This provides an enhanced return to the Trust, though the size of any return will be dependent on the size of subscriptions and redemptions.

With effect from 28 April 2018, PricewaterhouseCoopers LLP ceased to be Independent Auditors of the Trust and KPMG LLP have been appointed. The change of Auditor has no impact on the way the Trust is operated.
