

4 ways to protect an income

An income could be a client's most important asset, that's why we've designed a comprehensive range of income protection products. When it comes to protecting what's important, you can tailor the right cover for your clients' needs, with more benefits and more choice.

We all know it's important to cover the things that mean a lot to us, like our house, car, pets and even our phone. But what pays for all these things is our income. Did you know that only 1 in 10 people protect their income, and 44% of people would struggle with loss of income within six months.

Why clients may think it's not important

“The state will see me through”

Statutory sick pay is £95.85 per week and only pays out for a maximum of 28 weeks.

“It won't happen to me”

The average age of our income protection claimant was 41.

“I can rely on my savings”

44% of us likely to struggle with a loss of income within six months.

“The insurer won't pay out”

We paid out 93% of claims in 2019.

“I already have critical illness and life insurance”

Income protection could fill the gap the other two don't cover.

“It's not right for me”

We offer a range of cover options to suit your clients' budget and needs.

Introducing our suite of income protection products

Income Protection Benefit

Designed for everyday
