

Fracture Cover

Protecting against the cost of injury

Insured by AXIS Specialty Europe SE. The support and services are provided by Trustedoctor, a sister company of Further Underwriting International SLU

Protecting against the cost of injury

Fracture Cover can be added to life insurance, critical illness, income protection and rental protection policies.

Your clients can make **multiple claims per year with a maximum pay-out of £7,500**, for an additional monthly premium of:

£5.90

How fracture cover works

Your clients can make **multiple claims per year with a maximum pay-out of £7,500** – whether they have an accident where they sustain multiple injuries at one time, or they have multiple injuries in a 12-month period.

The cover applies to **20 different fractures, 9 different joint dislocations, Achilles tendon ruptures and knee ligament tears**.

Depending on the injury, your client will receive a **pay out of £2,000, £4,000, £6,000 or £7,500** – the more serious the injury, the more the pay-out.

There is no additional underwriting for this product, however we are not able to offer Fracture Cover if:

- Your client has osteoporosis or pseudarthrosis
- Your client gets rated on their protection policy because of a risky hobby or job
- If your client already has this benefit on another Legal & General policy.

Please see refer to policy booklet for full terms and conditions

Annual product renewals and price reviews

Every 12 months we will write to your client in advance, to let them know their policy is up for renewal and if there is any change to the price.

When your client takes out the policy, it will default to an automatic renewal. However, they can choose not to automatically renew.

For clients continuing with automatic renewals, we'll write to them letting them know we're renewing their Fracture Cover unless they instruct us not to.

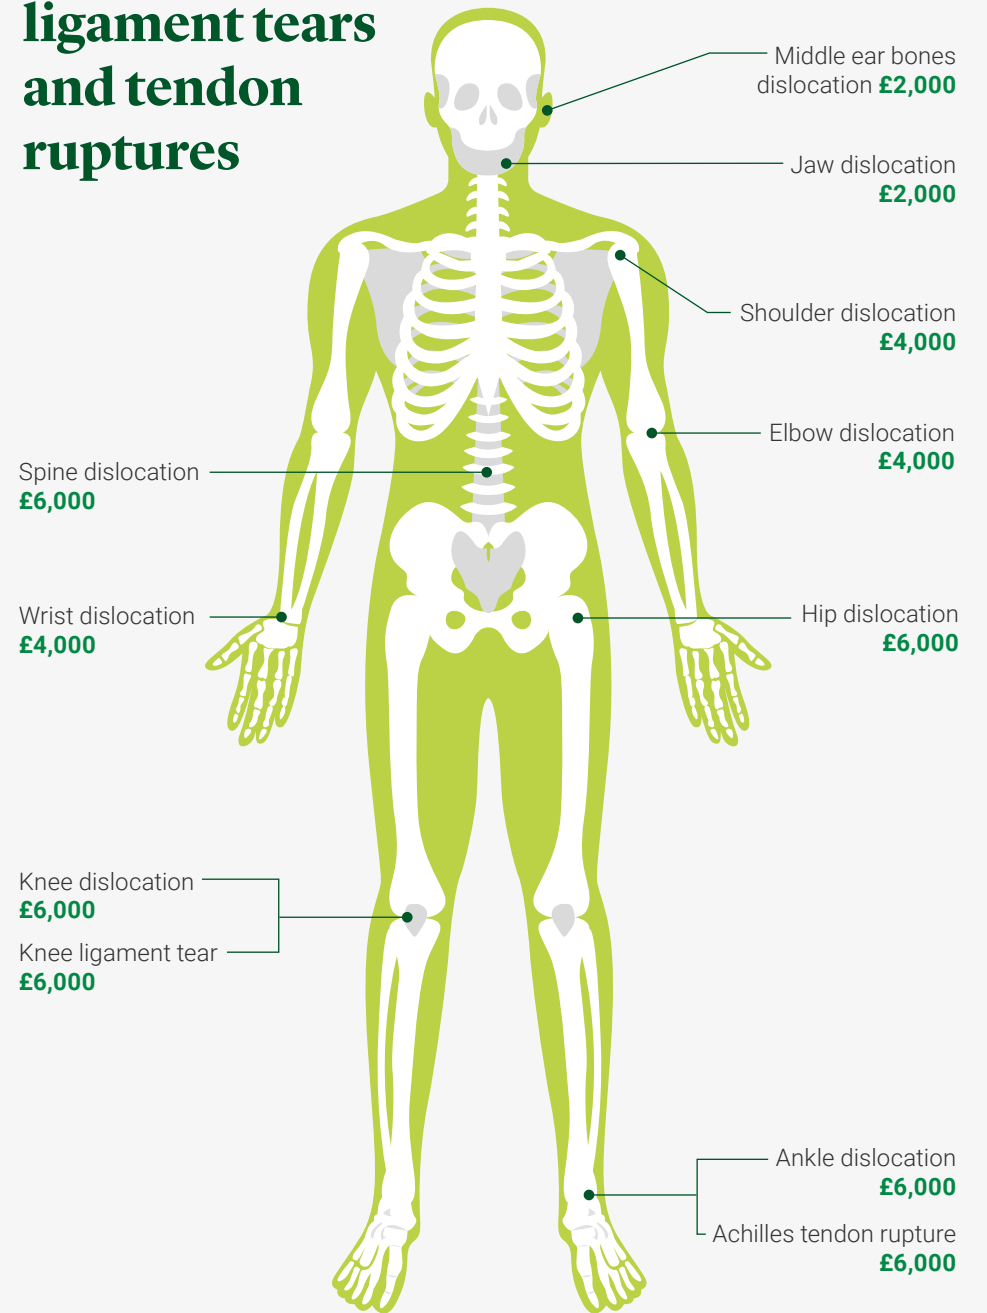

For clients who choose not to automatically renew, we'll write to them asking if they want to keep Fracture Cover, and we will remove it from their core product if they do not reply.

*Fracture Cover cannot be added to Whole of Life Protection Plan or Independent Critical Illness policies.

Fractures

Dislocations, ligament tears and tendon ruptures
