

NEW electronic Declaration of Health for Intermediaries.

A new online digital journey for new business

We're pleased to announce that from 14th March 2022 we'll be launching a new Digital process, giving you the option to complete a new business, Declaration of Health on behalf of your customer.

Our online journey in Agent Hub (OLPC) gives you the control to complete the Declaration of Health quickly and easily, helping you get your customer on risk sooner.

Watch our short video to see how it works [here](#)

More benefits:

- We'll let you know 7 days before a declaration of health becomes due to save you time in unnecessary delays when it's time to put your customers policy live.
- Our pro-active approach saves you time and helps with your pipeline management and getting your business on the books without delays
- We'll let your customer know that you've completed the Declaration on their behalf allowing them to check their details are correct.
- We've removed unnecessary paper documents and processes so no more delays with paper and postage adding delays to your customer being protected.

Thanks for your continued support.
