

Introducing CONNECTPlus

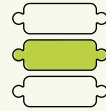

CONNECTPlus is a key element to our Group Income Protection suite of value added services, at no extra cost. The downloadable app, provided by HCI Digital can help to empower employees we're covering and their immediate families, to learn about and self manage the impact of living with one or more specific long term health conditions. The app also includes tools and resources to support all conditions to help employees manage their general health and wellbeing. Line managers and HR can also access the app to better understand an employee's situation and the support they might need.

Manage Cancer

Stroke

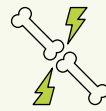

Multiple Sclerosis (MS)

Type 2 Diabetes

Long Covid

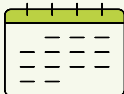

Rheumatoid Arthritis

CONNECTPlus also provides general health and wellbeing tools and resources to manage all conditions, even those not listed above.

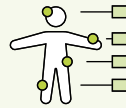

Specific condition and healthy lifestyle information to empower employees to take control of their own care.

Appointment diary to support with day to day admin.

Medication reminders to help ensure constant support is at hand.

Symptom trackers to help monitor health progression.

Video explainers and frequently asked questions.

Guidance for returning to work to help build confidence in managing this transition.

Educational content can support line managers/HR to access educational material to help them manage an employee's needs.

Legal & General Assurance Society Limited. Registered in England and Wales No.00166055. Registered office: One Coleman Street, London, EC2R 5AA.
