

Cancer Care Pathway

Helping our Group Income Protection customer's employees access the right support during cancer treatment and recovery

In the UK, over 100,000 people of working age are diagnosed with cancer each year. And more than 700,000 people of working age are living with a cancer diagnosis. Many will continue to work, after or even [through their treatment](#). In 2019, of the £64.3m we paid in Group Income Protection claims, cancer was the biggest cause. It's clear to see that putting the right support in place for employees diagnosed with cancer, is crucial for all companies.

We place the employee at the heart of our approach. If an employee is diagnosed with cancer, our team of Rehabilitation Specialists can carry out an assessment, to establish what care pathway would be most beneficial and appropriate. Our Cancer Care Pathway makes accessing the right resources quick and easy, from counselling sessions to creating a tailored return to work plan.

Cancer Care Pathway

Helping our Group Income Protection customer's employees access the right support during cancer treatment and recovery

In the UK, over 100,000 people of working age are diagnosed with cancer each year. And more than 700,000 people of working age are living with a cancer diagnosis. Many will have a significant impact on their work and [their treatment](#). In 2019, of the £64.3m we paid in Group Income Protection claims, 10% were for cancer. It's clear to see that putting the right support in place for employees is important for all companies.

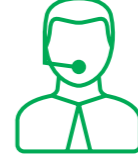

We place the employee at the heart of our approach. If an employee is diagnosed with cancer, our team of Rehabilitation Specialists can carry out an assessment, to establish what support is most beneficial and appropriate. Our Cancer Care Pathway makes access to support easy, from counselling sessions to creating a tailored return to work plan.

When the assessment indicates a clinical need, our Rehabilitation Team can refer the employee for psychological treatment, physiotherapy or rehabilitation via our third-party providers. Our clinicians will keep you informed.

Cancer Care Pathway

Helping our Group Income Protection customer's employees access the right support during cancer treatment and recovery

In the UK, over 100,000 people of working age are diagnosed with cancer each year. And more than 700,000 people of working age are living with a cancer diagnosis. Many will continue to work, after or even [through their treatment](#). In 2019, of the £64.3m we paid in Group Income Protection claims, cancer was the biggest cause. It's clear to see that putting the right support in place for employees diagnosed with cancer, is crucial for all companies.

We place the employee at the heart of our approach. If an employee is diagnosed with cancer, our team of Rehabilitation Specialists can carry out an assessment, to establish what care pathway would be most beneficial and appropriate. Our Cancer Care Pathway makes accessing the right resources quick and easy, from counselling sessions to creating a tailored return to work plan.
