What you need to know about a Legal & General Lifetime Mortgage

You can release equity from your home to do more of the things you enjoy

You must be a homeowner aged 55 or over. A lifetime mortgage is a loan secured against your home. There may be cheaper ways to borrow money.

No negative equity guarantee

Whatever happens to the value of your property, you will never owe more than the price it is sold for. Subject to terms and conditions.

Nothing to repay while you live in the home

You don't have to repay any of the money or the interest until you die or move into long-term care. Our interest rates are fixed for the duration of the loan and interest is added to the loan each month. This means the interest is compounded and can grow quickly.

It's important to get advice

We have a team of specialist advisers who will take you through all your options and assess whether a lifetime mortgage is right for you.

Inheritance protection

A lifetime mortgage will reduce the size of your estate and any inheritance. However, you can protect part of the value of your home so it can still be left as an inheritance.
