

# Tax Year Rates and Allowances 2018/2019

---

# Introduction

We know tax can be complicated so we've designed this document to help you understand the tax rates and allowances that apply for the 2018/2019 tax year. It will hopefully help you work out what will apply to you and when.

The information below is for the 2017/2018 and 2018/2019 tax years, which run from 6 April to 5 April inclusive. Please note that the 2018/2019 rates are only proposed and they haven't been approved by the government yet, so you should only use them as a guide.

Allowances	2017/2018 rate	2018/2019 rate
<b>Annual Allowance*</b>	£40,000	£40,000
<b>Money Purchase Annual Allowance (MPAA)**</b>	£4,000 (applicable when someone takes a 'flexible payment' from money purchase benefits)	£4,000 (applicable when someone takes a 'flexible payment' from money purchase benefits)
<b>Annual Allowance charge***</b>	Marginal rate of income tax	Marginal rate of income tax
<b>Lifetime Allowance</b>	£1,000,000	£1,030,000
<b>Lifetime Allowance charge****</b>	25% (if benefits taken as an income). 55% (if benefits taken as a lump sum)	25% (if benefits taken as an income). 55% (if benefits taken as a lump sum)

## Important note:

\*There is a tapered reduction in the annual allowance for individuals with income (including the value of any pension contributions) of over £150,000 a year, where their income (excluding a pension contributions) is in excess of £110,000.

\*\*The MPAA is the maximum amount you can pay into your money purchase (also known as defined contribution) pension in a tax year after you have started to take money from your pension pot in certain ways. Your pension scheme or provider will tell you if the MPAA applies to you when a payment is made.

\*\*\* This is the rate of tax you pay for any contributions over your Annual Allowance or MPAA in a tax year.

\*\*\*\* The rate of tax on any pension savings you withdraw over the Lifetime Allowance.

**Important note:**

\*A lump sum is subject to the Lifetime Allowance tax charge. It will also only be free of income tax if it's paid within two years from when the scheme is first notified of your death. Any lump sum older than two years will be taxed in the same way as payments made if you die after age 75.

\*\*Income is taxed at the beneficiary's/beneficiaries' rate of income tax.

# Protection against the reduction in the Lifetime Allowance

## FIXED PROTECTION 2016 AND INDIVIDUAL PROTECTION 2016

The Lifetime Allowance reduced from £1.25 million to £1 million on 6 April 2016. If your pension savings are worth more than the allowance, you have to pay a tax charge on the excess.

You can apply to HMRC for one of the two following protections:

- **Fixed Protection 2016** lets you keep the old Lifetime Allowance of £1.25 million. However, to keep it, you or your employer must not have added to your pension savings since 5 April 2016.
- **Individual Protection 2016** gives you a personal Lifetime Allowance, based on the value of your savings on 5 April 2016, but up to a maximum of £1.25 million. For example, if your savings were worth £1.1 million your Lifetime Allowance will be £1.1 million. If they were worth £1.4 million, your Lifetime Allowance will be £1.25 million. But, unlike Fixed Protection, you'll still be able to build up your pension savings.

**In both cases, any amount above the protected allowance will be subject to a tax charge.**

You can apply for these protections by using the HMRC online self-service system. Simply go to: [www.gov.uk/guidance/pension-schemes-protect-your-lifetime-allowance](http://www.gov.uk/guidance/pension-schemes-protect-your-lifetime-allowance) and click on the relevant links.
